

Opened in March!

1871 Grove Point Road, Savannah, GA

Fully-equipped Facility to Repair & Upgrade Your Rotating Equipment

Looking for a reliable facility with OEM standards to repair or upgrade your pump, blower, compressor, or any rotating or reciprocating equipment?

Goulds Pumps has opened a new facility at **1871 Grove Point Road, Savannah** to be closer to your operation.

The facility is fully equipped to handle repairs and upgrades of all pumps of all brands, types and sizes, including Goulds Pumps models 3196, 3175, 3180, 3296 EZ, 3316, 3405, 3410, 3796, 3996; AC pump models 731 and PWO.

We have over 170 years' experience in building, maintaining, repairing and upgrading rotating equipment of all brands.

For more information, call 336-662-0113.

From now until June 30, 2019, customers will get a free DCI (Disassembly, Clean and Inspect) for any repair or upgrade work performed by the Savannah shop.

Each horizontal & vertical centrifugal pump repair/upgrade comes with a revolutionary i-ALERT2 Equipment Health Monitor.
