

### Test Report

Number : TWNC00470017

Applicant: ITT Goulds Pumps  
240 Fall Street  
Seneca Falls, NY 13148  
USA

Date : Sep 30, 2015

Sample Description:

One (1) group of submitted samples said to be :

Sample Description : I alert  
Date Sample Received : Sep 14, 2015  
Date Test Started : Sep 16, 2015

---

Test Conducted:

As requested by the applicant, the submitted sample was dismantled into several material categories and a composite test was conducted by weight ratio. For details, please refer to attached pages.

---

Summary:

According to the client's request, a composite screening test was conducted for the **163** Substances of Very High Concern (SVHC) in the Candidate List promulgated by the European Chemicals Agency (ECHA). The criterion defined in Article 33 of the REACH regulation for providing information on the safe use of substances in articles is less than 0.1% (w/w). For the submitted sample, the composite test results show the SVHC are less than 0.1% (w/w).

The thresholds and substances of SVHC are defined in Article 7 and 57 of Regulation (EC) No 1907/2006 (REACH Regulation).

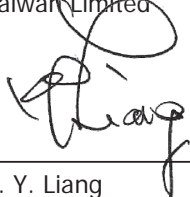

According to the REACH regulation, the Candidate List of SVHC is proposed and evaluated by European Chemicals Agency (ECHA) and may be subject to change in the future. As of Jun 15, 2015, there are total of **163** SVHC in this list. The applicant should be ready to note the latest list.
