

Corpus Christi PRO

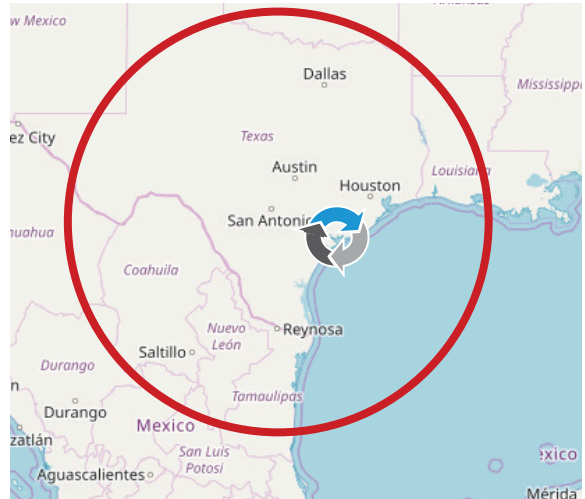

ITT Brands

How is your critical equipment?

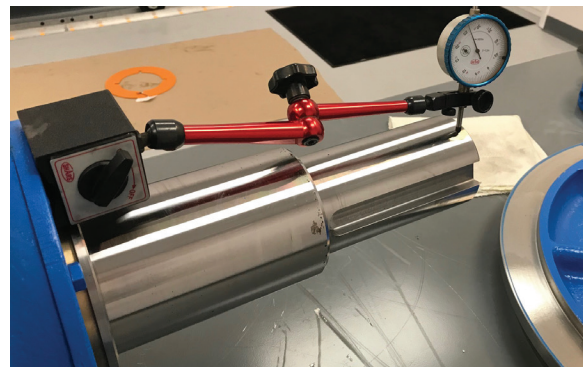

- Is it ready to use from storage?
- Is it properly maintained while on the shelf?
- Is it in a clean environment?

Corpus Christi PRO can help store one or two layers of your inventory offsite while properly maintaining them.

Trusted OEM

- Repairs, Rebuild, Upgrades done by trained OEM experts.
- Fixed right the first time.
- All rotating equipment serviced by Corpus Christi PRO will have the option to have the i-ALERT sensor installed to help diagnose any future maintenance needs.

Offsite Asset Management Program

- Maintain the equipment to a level where they are ready to use.
- Corpus Christi PRO will keep the units in a clean environment and have programs in place to rotate shafts on regular basis, replace bearings after a prescribed shelf life, properly rotate the equipment so the older ones are not pushed back on the shelf.
- Truly a controlled environment thus providing the utmost in bearing protection during assembly.
