

Professional Blower Repair

(Before) Ash blower ready for tear down and inspection.

Our local PRO Services® Centers are equipped and trained to restore all name-brand blowers to new condition. Our ISO-9002 Certified PRO Services® Centers have developed procedures and processes superior to standard repair, resulting in extended service time and reduced maintenance costs to our customers. Our goal at PRO Services® is to reduce the cost of ownership, improve reliability, and increase profitability for our customers.

(After) Ash blower rebuilt, tested, and ready for delivery.

Blower Repair Services

Located worldwide, our PRO Services® Centers are able to provide unparalleled blower repair services. Capabilities include:

- Experienced engineering and production staff.
- Equipped with state-of-the-art equipment.
- Upgrades that enhance performance and service life.
- Rapid turnaround. Repairs are performed quickly and professionally.
- ISO-9002 Certified procedures and processes.

Superior Methods of Repair

We utilize leading technology and repair practices. We will not only repair your equipment, but also **increase the average life of your blowers.**

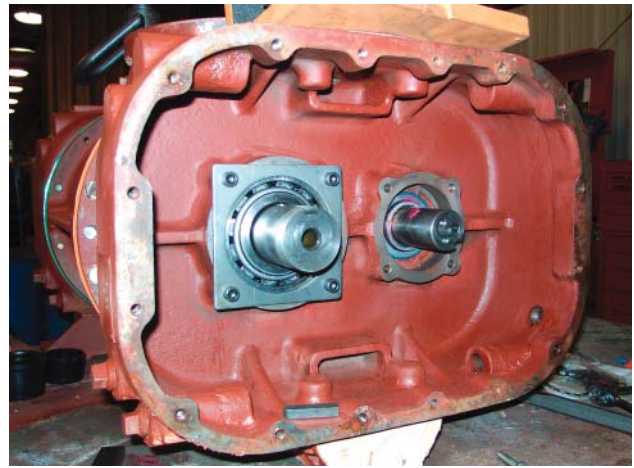

The following repair methods are available:

- Metal spray or sleeving of worn sleeves.
- Re-sleeving of worn bearing fits to specifications.
- Test run capability.
- Vibration testing and temperature monitoring.
- Dynamic balancing of rotor lobes and shafts.

Total Quality

Before and after the blower has been reconditioned, it is quality inspected for:

- Proper clearances on shafts and bearing fits.
- Lobe to housing clearances.
- Proper clearances between lobes.
- Acceptable vibration and temperature.
- Gear wear and fatigue.

New bearings and seals installed.

Rebuilt and ready for testing.

PRO Services® Advantages

- One (1) year warranty on material and workmanship.
- Full Engineering support.
- Field services available to assure proper installation and start-up.
- Experience with all manufacturers' equipment provides best available practices and designs in all upgrades.
- We recognize problems and address *root causes* of failure, not just mechanical symptoms.
- Twenty-four hour, seven-days-a-week *emergency service*.
